As you complete your information, *save any images* that might be of value to your project board. Also, you'll want to save any websites that might be useful to add as links such as links to a video, audio file, or primary source document. You will enter the web addresses for these sites into your virtual board.

Your teacher will give you directions to explain if you will log in to create an account or not. Visit this website to begin: <http://padlet.com/>

Double-click on your board to begin entering information.

Be sure to click the “gear” icon to modify the look of your board. You can change the background, layout, and more!

You'll also want to visit the Privacy link. Set your board as a “Hidden link” where visitors “Can view” your information but not make any changes!
