Industry	15.2%	24.6%	27.8%
Services	83.5%	73.8%	62.5%
Taxes	31.7% of GDP	44.4% of GDP	20.3% of GDP
Budget	revenues: \$936.2 billion expenditures: \$1.106 trillion	revenues: \$1.721 trillion expenditures: \$1.696 trillion	revenues: \$377.7 billion expenditures: \$386.4 billion
Imports	manufactured goods, machinery, fuels, foodstuffs	machinery, data processing equipment, vehicles, chemicals, oil and gas, metals, electric equipment, pharmaceuticals, foodstuffs, agricultural products	machinery, vehicles, pharmaceutical products, plastic, semi-finished metal products, meat, fruits and nuts, optical and medical instruments, iron, steel
Exports	manufactured goods, fuels, chemicals, food, beverages, tobacco	motor vehicles, machinery, chemicals, computer and electronic products, electrical equipment, pharmaceuticals, metals, transport equipment, foodstuffs, textiles, rubber and plastic products	petroleum and petroleum products, natural gas, metals, wood and wood products, chemicals, and a wide variety of civilian and military manufactures
Import Partners	Germany 14.9% China 9% Netherlands 2.8% US 6.5% France 6.1% Belgium 5.2% Italy 4.1%	Netherlands 13.8% France 8% China 6.6% Belgium 6.3% Italy 5.4% UK 4.8% Poland 4.6% Czech Republic 4.4% Austria 4.3% Switzerland 4.1%	China 17.8% Germany 11.5% US 6.6% Italy 4.5% Belarus 4.1%
Export Partners	Germany 10.8% US 10.4% Netherlands 8.1% Switzerland 7.2% France 6.5% Ireland 6.4% Belgium 4.5%	France 9.6% UK 7.9% US 6.9% Netherlands 6.9% China 5.8% Austria 5.3% Italy 5.1% Poland 4.5% Switzerland 4.3%	Netherlands 13.7% China 7.5% Germany 7.5% Italy 7.2% Turkey 5%
Value of Imports	\$802 billion	\$1.2 trillion	\$308 billion
Value of Exports	\$481 billion	\$1.5 trillion	\$498 billion

Population Pyramid

A population pyramid illustrates the age and sex structure of a country's population and may provide insights about political and social stability, as well as economic development. The population is distributed along the horizontal axis, with males shown on the left and females on the right. The male and female populations are broken down into 5-year age groups represented as horizontal bars along the vertical axis, with the youngest age groups at the bottom and the oldest at the top. The shape of the population pyramid gradually evolves over time based on fertility, mortality, and international migration trends.

United Kingdom

Germany

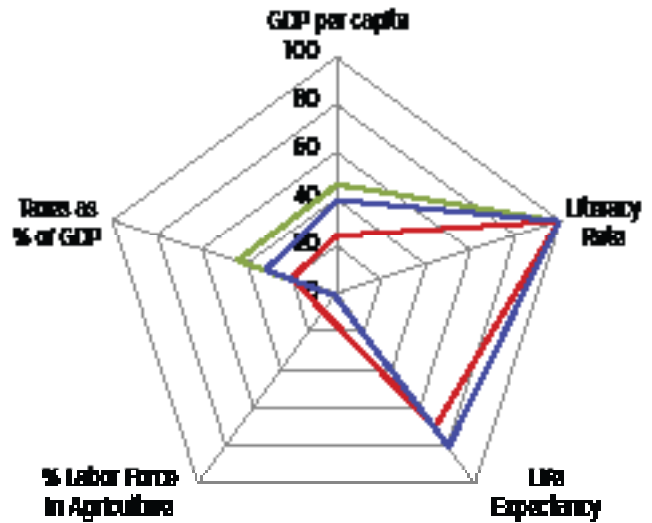

Russia

Spider Graph

A spider graph consists of plotting data on a series of spokes, called radii, with each spoke representing one variable (for example: GDP per capita, literacy rate, life expectancy). The length of each spoke from the center of the graph is proportional to the other spokes. A line is drawn connecting the data points for each spoke. This gives the graph the look of a spider web. The spider graph can be used to answer such questions as: Which characteristics are most similar between countries? Are there outliers?

— United Kingdom
— Germany
— Russia

Comparisons 1 Questions

Use the data tables, population pyramids, and spider graph to complete each item comparing the three focus countries.

- Which country is the largest in land size?
- Which country is the most ethnically diverse?
- Which country has the greatest variety of natural resources?
- Which country has the lowest standard of living?
- Which country has the highest percentage of farmers?
- Which country has the healthiest citizens?
- In which country does industry contribute least to the GDP?
- Which country or countries have a negative trade balance?
- Which country or countries have a positive trade balance?
- Which country has the highest tax rate?
- With which of these countries does the United States have the strongest trade relationship?
- According to the spider graph, on which point of comparison are the countries most alike?
- Challenge: Compute the dollar amount spent per year, per person, educating the population in each country. Assume that $\frac{1}{4}$ of the population is in school and round off decimals to the nearest whole number, as needed.

Hint: You will need the GDP, percentage of GDP spent on education, and population of each country to complete the task
